**Hal Leonard Corp. : 100 Greatest Guitar Intros Songbook** before purchasing it in order to gage whether or not it would be worth my time, and all praised 100 Greatest Guitar Intros Songbook:

4 of 4 people found the following review helpful. This is one of those guilty pleasures that will give you hours of playing enjoyment. By Brian D. Johnston At times I don't want to invest effort in my own compositions, or to undertake a lesson in some music genre... and this is when this book comes out. You sit back, reminisce guitar's golden years and play some riffs that will put a smile on your face. All the greats are here, such as Van Halen's Ain't Talking 'Bout Love, The Guess Who's American Woman, George Thorogood's Bad to the Bone, Blue Oyster Cult's Don't Fear the Reaper, and several more... 128 in fact (28 more than the book's title). And if you have a bit of improv skills, it doesn't take much to revamp the intros to create your own unique take and hook. This is an example of fun practice. Nice work!
