I am fairly fluent with treble clef but struggle a lot with base clef. I can sight read these songs, and with a bit of practice people could sing along, or it at least wouldn't be painful to listen too. I also took it to staples and got it spiral bound so it would lay flat.1 of 1 people found the following review helpful. Good book, wish it was a better selection of songs.By Shawn Di like the setup. and the songs we know are fun to play. the only down side is that there are so many songs we have never heard of, where did these come from ?0 of 0 people found the following review helpful. It has a great selection of songsBy Tim A.The book was in new condition when it arrived. It has a great selection of songs. The music, tab, and

lyrics are fun to go through while playing for my daughter. It has tunes to some nursery rhymes that I didn't actually know have tunes, and it has some tunes I've just never heard of so some of it is a bit awkward. That's probably more my lack of knowledge.
