Victoria Charles, Klaus Carl : 1000 Drawings of Genius (The Book) before purchasing it in order to gage whether or not it would be worth my time, and all praised 1000 Drawings of Genius (The Book):

0 of 0 people found the following review helpful. Five StarsBy Jesus M Cervantes RomeroExcellent collection of varied drawings from early Classical ages to 20th.Century. An impressive work of investigation.0 of 1 people found the following review helpful. Good and badBy SteveBook is loaded with great drawings but, received the book with some damage across the top of the book.

Long thought of as the neglected stepchild of painting, the art of drawing has recently begun to enjoy a place in the sun. With major museums around the world, from the Met to the Uffizi, mounting exhibitions focused on the art of draughtsmanship, drawing is receiving more critical and academic attention than ever before. This captivating text gives readers a sweeping analysis of the history of drawing, from Renaissance greats like Leonardo da Vinci and

Michelangelo, to Modernist masters like M.C. Escher, Pablo Picasso, and everyone in between.
