I wish that this book was a bit more up to date (some of the illustrations are of dog breed standards that have "aged" when today dogs like show Dobermans have a longer ear crop). It would be also be more convenient if the illustrations were available on a CD like in many of the newer Dover art books, to use as clip art for newsletters. The actual rendering of the dogs is beautifully done. I like the show pose

dogs, but I really like the casual sketches and drawings of dogs at work or playing. I also find it sad there is no mention of agility or rally training or showing. There is only one picture of obedience working dogs, again, this is sad. More illustrations of heeling, sitting, and other exercises would be useful. And this section needs to be brought up to date with rally. It would also be nice to see some service dogs or therapy dogs at work. Its says the book is a replication of a publication from 1962, and that is what it looks like...a 50 year old book that hasn't kept up to date with new accepted AKC breeds, breed changes in grooming and cropping and some of the new exciting strides forward in dog training and working. 0 of 0 people found the following review helpful. 101 Dog Illustrations By alabamaThe illustrations are perfect for what I need them for. 1 of 1 people found the following review helpful. 101 Dog illustrations By Madeline C. Anderson The quality of this book was excellent. The illustrations were better than I expected. The service of the vendor was reliable, and the book arrived on time with excellent packaging.
