Hal Leonard : 150 More of the Most Beautiful Songs Ever Songbook before purchasing it in order to gauge whether or not it would be worth my time, and all praised 150 More of the Most Beautiful Songs Ever Songbook:

By nc_beagle I guess this is a case of wishing they had the ability to preview the book before ordering. I knew far fewer of the songs than I expected. Some of the ones I thought I'd know actually just had the same name as a song I knew. I hate to penalize the book much because of my lack of knowledge about the songs. It's just that familiarity with the song helps me so much when starting a new piece of music. I guess I'll be looking songs up on and trying to get a feel for them by the 15-second free preview. The book is pretty thick but actually stays open reasonably well, given its thickness. You have to "break the spine" of course, but I've played songs near the back and had little trouble with the pages staying put. The price was reasonable so if I can learn ten songs out of the 150, I'll figure I have my money's worth. As to the difficulty, the songs definitely fall under the "easy" category. Now, that doesn't mean a brand new student will find them easy, but they use a lot of single-notes and chords in the left hand. Plus, most are a slow tempo and can be played expressively, so you have more time to find your fingering. 0 of 0 people found the following review helpful. Lots of songs for the money. By robert fritz There are lots of songs to choose from and the binding isn't too difficult to open in order to play as some books are. There is a wide assortment of songs from different eras. The "Easy" rating is well deserved, and most songs still sound quite lovely even with the easier arrangement. 0 of 0 people found the following review helpful. Great Collection of Standards. By LBI Greg The book is huge, and I had to divide it in two and have it spiral bound. That being said, there are probably 60 of 75 tunes in each half that I play regularly. Easy to read arrangements with enough complexity for the home player to sound like a skilled pianist and a framework for the skilled musician to improvise. Tune for tune, this book is a great value, especially if you locate a lightly used copy, as I did.

(Piano/Vocal/Guitar Songbook). A fitting follow-up to one of the most popular songbooks ever 150 of the Most Beautiful Songs Ever , this collection contains 150 more classics with no duplication of songs between the two volumes. Piano/vocal/guitar arrangements include: All I Ask of You * All the Way * Beautiful in My Eyes * Can You Feel the Love Tonight * Change the World * Cry Me a River * Do I Love You Because You're Beautiful? * Don't Know Why * Dream a Little Dream of Me * Easy Living * Everything Happens to Me * A Fine Romance * Grow Old with Me * I Remember You * I've Got My Love to Keep Me Warm * Imagine * Let's Fall in Love * Love Me Tender * Misty * My Heart Will Go on (Love Theme from Titanic) * They Say It's Wonderful * Time After Time * A Whole New World * Wonderful Tonight * You Raise Me Up * and more.
