The problem with books like this, of course, is anyone listed in it is going to get swamped with submissions, most of which will go straight into the garbage.But you can maximize the book's usefulness by making sure you have the most recent edition, and do a bit of research to make sure your submitting work to someone who might actually be able to use what you do (no nude figure studies to children's publishers etc.) This book is not a sure fire way to get published. But it is still useful, and worth the investment.0 of 0 people found the following review helpful. Thinking about a new market for your creative work this book is the best place to startBy CustomerExtensive well organized reference book a standard in the industry. Illustrators, fine artists, surface designers, cartoonists and graphic designers will all benefit .Thinking about a new market for your work...lots of possibilities packed into 671 pages.
