Elizabeth V. Reyes : 25 Tropical Houses in the Philippines before purchasing it in order to gage whether or not it would be worth my time, and all praised 25 Tropical Houses in the Philippines:

2 of 2 people found the following review helpful. **Filipino Modern!** By M. delRosario This book showcases what Filipinos can do in modern architecture and interior design, while still incorporating the notably unique and vibrant tropical style. The houses featured in this book used a number of West, East, traditional, even tribal elements that can only be truly Filipino. A great reference material for people into modern architecture with a tropical twist. It's a feast! 1 of 1 people found the following review helpful. An ultimate guide for students of architecture of Filipino modern culture and design By Midwest Book Review **25 Tropical Houses In The Philippines** by Elizabeth V. Reyes, featuring the photography of A. Chester Long, is an impressive collection of the innovative architectural designs showcasing Philippines creativity and artistic approaches to crafting modern furniture and buildings. Featuring a substantial compendium of vivid full-color photography, **25 Tropical Houses In The Philippines** acts as an ultimate guide for students of architecture of Filipino modern culture and design. A welcome addition to professional and academic

library Architectural Studies collections, 25 Tropical Houses In The Philippines for anyone who has an interest in the art of modern architectural design in a tropical south-seas climate.

25 Tropical Houses of the Philippines features top Filipino architects and designers with ideas that are stylish, contemporary, and show twenty-first century savvy. The Philippines has long been known for creative designs and furniture and for the skill of its artisans in crafting modern products from traditional materials. This book takes a giant step forward—into the realm of modern architecture and interior design. Twenty-five stunning homes showcase the best of residential design by a number of outstanding Filipino architects and designers. It offers a tour of stunning structures ranging from gracious pavilion-houses in elite subdivisions of Manila to elegant vacation homes of Batangas and Mindoro. Blending the graceful proportions of Asian design forms with the rigorous discipline and modernization of Western architecture, the houses retain an affinity with natural materials—warm hardwoods, rustic stone and slate, earthy clay and tile—and at the same time introducing innovative use of glass, concrete, steel, and aluminum. Water elements and lush tropical gardens complete the transition from traditional conventions to Asian architectural fusion and international modernist trends.
