By GenV This review is for the Kindle format version of this book. DO NOT PURCHASE THIS BOOK IN KINDLE FORMAT. Hopefully I will save you some irritation and disappointment. I saw this book and as a beginner ukulele player, I thought it would be an easy way for me to learn some Christmas music. I tried the sample and it only gave the first few pages, through the table of contents. No music. This should have been my first clue. I looked at the "take a look inside" option on the paperback selection and it showed the first few measures of the first song and it looked like it would be great. So, I ordered the kindle format. I thought I could prop up my iPad and play. When I opened it on my iPad (not a mini, a full size one), I was very disappointed. The format was awful. The pages were smaller than the viewing screen. A bit bigger than a paperback book page and the music was broken up

over several pages for each song. The title was on one page all by itself with no music, and then you turned the page to see the music. But, it was not even a whole page of the music. Maybe four lines of the music and then you had to flip the page. Not a good lay out at all. Just about the time you got into the rhythm of the song, its time to turn the page. Even short songs, like The First Noel, were broken up over two pages.Thankfully, I was able to return the kindle version for a refund. I will spend a few more dollars and get the paperback. Save yourself the trouble and do the same.Good Luck!5 of 5 people found the following review helpful. Good choice for a quick and easy holiday partyBy ToriLynn YoungIt's fun and really is easy. I'm relatively new to Ukulele so I needed a book that could give me easy chords choices for a variety of Xmas songs. One thing to know is that some of the songs are rather older and traditional from some other countries...however they are enjoyable and enables me to expand my Xmas offerings...0 of 0 people found the following review helpful. HorribleBy mermaid_spiritAuthor clearly downloaded music from the web and published as an eBook for profit. Many songs reference chords that are not shown in the tab area! Formatting is also terrible. Do not waste your money like I did.

(Ukulele). 30 songs of the season are presented in 3-chord arrangements for ukulele in this collection of carols.
