**Brian Dilg : 30-Second Photography: The 50 most thought-provoking photographers, styles and techniques, each explained in half a minute (30 Second Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised 30-Second Photography: The 50 most thought-provoking photographers, styles and techniques, each explained in half a minute (30 Second Series):

0 of 0 people found the following review helpful. maybe it will make me a better photographer? Time will tellBy Paul Reinsteinvery interesting read. stuff I haven't seen elsewhere, and it informs my interest in photography. maybe it will make me a better photographer? Time will tell.0 of 0 people found the following review helpful. A great snapshot of photography and it's foundational concepts!By Reggie PetersI was looking a quick overview of modern photography

and this fit the bill perfectly! It's a nice survey of photography without oversimplification. However it's not too techie. I think it will help with photos

Who invented photography first, Fox Talbot or Louis Daguerre? Who got the patent? Who made the most money? Who are the greatest photographers and what have their contributions been? This book takes the 50 most important aspects of photography — both the major styles and the key technical aspects that make them possible — and explains each in two pages, 300 words and one picture. The book also includes six profiles of the greatest names in the history of photography and shares their contributions. Whether you pick it up for 30-seconds at a time or read it from cover-to-cover, this book is guaranteed to have you thinking about your own and other people's photography in a whole new way.
