Andy Martin : 7-String Guitar: An All-Purpose Reference for Navigating Your Fretboard before purchasing it in order to gage whether or not it would be worth my time, and all praised 7-String Guitar: An All-Purpose Reference for Navigating Your Fretboard:

0 of 0 people found the following review helpful. thorough 7 string guitar referenceBy Joshua Y. Yuanit's definitely a reference book as it says in the title. there's just pages of arpeggio patterns, chord patterns, scale patterns, charts, all sorts of stuff. it's definitely not a lesson book so you can't just like, read through it and pick up things, it really is a reference book. there's words and bits of help concerning visualization of the fretboard, patterns, use of said things in the book, general advice about performance and practice.nice book to have though if you want some help with your 7 string guitar.0 of 0 people found the following review helpful. Great for learning many new chordsBy hilljack13Great for learning many new chords. This book is straight to the point with page after page of chords, scales, and modes.

Excellent reference and highly recommended.0 of 0 people found the following review helpful. Lack of instructions on teaching a 7 string. I ...By Ann-MarieLack of instructions on teaching a 7 string. I play a 6 string and i was looking for more instructions. This is basically just a book with different chord positions.The "reference" in the title is probably what I should have paid more attention to. That is my reason for the 2 stars.

(Guitar Educational). Introducing 7-String Guitar , the first-ever method book written especially for seven-stringed instruments. It teaches chords, scales and arpeggios, all as they are adapted for the 7-string guitar. It features helpful fingerboard charts, and riffs licks in standard notation and tablature to help players expand their sonic range in any style of music. It also includes an introduction by and biography of the author, tips on how to approach the book, a guitar notation legend, and much more! "Andy's book, 7 String Guitar , is a practical and useful tool for approaching the 7 string beast. It offers players the opportunity to expand their finger-fetishing vocabulary." Steve Vai
