Great Book with just about every chord possible on the 7-string. No theory in this book, but that is not why I bought it.Basically, it's the giant poster of chords except in book form, which is exactly what I was looking for. \m/0 of 0 people found the following review helpful. Four StarsBy Jim BeanHas a lot of usable chords.1 of 1 people found the following review helpful. go to chord finder bookBy David McCarthyHal Leonard never disappoints in the music book category. Got as a supplement to another book in case I need to locate a hard to find chord. Small/light enough to fit in guitar case as well.

(Guitar Educational). This convenient reference features easy-to-read diagrams of the most commonly used chords, including 30 chord qualities for each root note for a total of more than 350 chords. Includes an interesting introduction on the history of the 7-string guitar, a handy diagram of the complete 7-string fingerboard, basic chord theory, 7-string guitar tab manuscript paper, and notes explaining how to use the book. Covers all styles of music.
