In *A Brief History of the Artist from God to Picasso*, Paul Barolsky explores the ways in which fiction shapes history and history informs fiction. It is a playful book about artistic obsession, about art history as both tragedy and farce, and about the heroic and the mock-heroic. The book demonstrates that the modern idea of the artist has deep roots in the image of the epic poet, from Homer to Ovid to Dante. Barolsky's major claim is that the history of the artist is inseparable from historical fiction about the artist and that fiction is essential to the reality of the artist's.

imagination.

In this brilliant, wide-ranging essay, Barolsky examines the historical idea of the artist, arguing convincingly, for example, that we should view Homer as an early art historian and that Dante played a crucial role in shaping the modern view of the artist. --David Wilkins, University of Pittsburgh, EmeritusPaul Barolsky, our best art writer, is a miraculously economical stylist with a happily reliable sense of humor. God was sometimes a failed artist, he argues, much like Picasso. Moving very quickly, with reference to Homer, Ovid, Dante, Vasari, Balzac, and some detective novels, his book tells the history of European visual culture. Vladimir Nabokov could hardly have done better. --David Carrier, Champney Family Professor, Case Western Reserve University/Cleveland Institute of ArtPaul Barolsky's new book is marvelous, a treasure. It is an imaginative history of fact, fiction, and fable brilliantly related by a historian of the imagination. --William E.
