This is great for true beginners with many of Chopin's most well known pieces.0 of 0 people found the following review helpful. Great piano bookBy ChristianBook was great because I love chopins compositions and his repertoire is very complex so this book provides a great solution for any beginner who wants to add what I call real piano music to their playing list however the pieces are much too short only a page of a

multi paged masterpiece, but it still is a great book loved it.0 of 0 people found the following review helpful. Five StarsBy muzic katGreat for beginners

Beginning pianists and their teachers will love this compilation of immortal music by Frédéric Chopin. Fun-to-play, pedagogically sound arrangements include the theme from the "Raindrop" Prelude, "Minute" Waltz, the charming Lullaby, and melodic highlights from the most familiar preludes, mazurkas, waltzes, impromptus, and études. Each piece is accompanied by informal notes that share insights into Chopin's life and the unique features of his music. From the lyrical Fantaisie-impromptu and "Butterfly" Etude to the brilliant strains of the "Military" Polonaise and "Heroic" Polonaise, these arrangements of 23 of the composer's best-loved pieces will prove welcome additions to any beginning pianist's repertoire. Plus, bonus MP3 downloads are included for each song to make practicing even easier!
