The best thing about the book is that it gives a web site address where you can listen to the songs being played. It's helpful for those still learning how to 'count' the notes to hear the songs played at the correct speed and tempo.3 of 4 people found the following review helpful. Easy To PlayBy Beth DoddI'm a beginning pianist. These songs in the book are simplified so that a beginner can enjoy the world of Mozart. There are different composers in this series. I got Beethoven also. If you want to learn to play these by ear, there is a link to an online website you can go to that will let yo hear the MP3 version of what these songs are supposed to sound like when played properly. I have played a few of the songs and did OK. I have never had a formal lesson, and am self-taught. But in my opinion, everyone who learns piano should have sheet music from various genres in their sheet music

library. Classical music like this was pretty much why pianos were invented. They go hand in hand, so I'm pretty pleased with this sheet music. Some of the songs are abridged though, but if you are just starting out, this should not bother you too much. It will be an opportunity to learn the basic structure of the classical music pieces anyway, and you can always add more complicated pieces later as you improve. 1 of 1 people found the following review helpful. InspirationalBy Forest TrowbridgeFrom one genius to another, from Mozart to my grandson Jack, was a most appropriate and appreciated piano play book. Compositions by the 7-year-old Mozart were an inspiration to my 7-year-old grandson and were much to his delight.

Beginning pianists can experience the pleasure and satisfaction of playing Mozart with this collection of special arrangements. It offers students of all ages the opportunity to charm listeners with familiar melodies from *The Magic Flute*, *Eine Kleine Nachtmusik*, *Don Giovanni*, and other popular works. *My First Book of Mozart* features 24 selections in a variety of moods and tempos. Highlights include *Rondo alla Turca*, *Papageno's Song*, *Minuet in D*, "Sleigh Ride" and "Trio" from *Three German Dances*, and *Twinkle, Twinkle Little Star*, with a set of *Variations*. Additional pieces range from andantes to allegros and dance music to lullabies, allowing novices an exciting chance to expand their repertoires and to get better acquainted with the works of Mozart. Plus, bonus MP3 downloads are included for each song to make practicing even easier!
