It is magically beautiful and I love it0 of 0 people found the following review helpful. Five StarsBy PaperieOne of the most beautiful books out there. I gave these as gifts, so nice.0 of 0 people found the following review helpful. very good conditionBy Mme DuboisJust beautiful, the book is designed as accordion fold, you feel any moment the butterflies will fly off the pages.

Exquisite full-color plates depict 216 winged beauties, soaring and drifting across the pages in apparently seamless flight. Also includes a bonus CD-ROM that features all of the royalty-free butterfly graphics, both in full "flights" and separated into individual units. Ideal for lovers of fine art and for use by graphic artists, designers, and craftworkers.
