Fun, but tricky sheet music!By Denise E.I saw the show, bought the cd and wanted the sheet music so that I could learn a few of the songs.The music is deievingly difficult. if you've been singing along with the cd. Not sure if these are the original keys, but the transcriptions aren't watered down.Note: I would not recommend this for anyone who doesn't consider themselves proficient in piano playing. This is not "easy to play" music. There are several songs in difficult keys, Cb, for example, and at least one song with double flats. Even some of the vocal lines can be challenging to sight read.3 of 3 people found the following review helpful. Well worth the purchaseBy RyanAn excellent piano reduction of all of the solo songs from A Gentleman's Guide to Love and

Murder. The songs themselves are excellent, and any accompanist should have no difficulty playing these with chord symbols notated as well. Well worth buying! 0 of 0 people found the following review helpful. ... most of the songs from A Gentleman's Guide to Love and Murder By lmnjThis book has most of the songs from A Gentleman's Guide to Love and Murder.I was so happy to find it at a better price here on than what they were offering at the show.
