**Raymond Spottiswoode : A Grammar of the Film - An Analysis of Film Technique** before purchasing it in order to gage whether or not it would be worth my time, and all praised A Grammar of the Film - An Analysis of Film Technique:

The reader will not need more than a glance at this book to discover that it arose out of the ashes of long-forgotten controversies, and was written at a tender age when the splitting of hairs seemed to its author more important than

making new discoveries. We may imagine him, as he sat in his panelled Oxford study, the work for his degree pushed to one side, floor and table laden with early writings on the filmmdash;the work of such practical masters as Pudovkin, Eisenstein and Grierson, and the scourings of critics and others whose names have not survived the years. What had they to say, these early analysts? Had they established the theory of the film as a veritable art? Had they sufficiently distinguished it from the art forms out of which it grew? Above all, had they fully appreciated the grounds of this distinction? The young author did not think so. With all the heady enthusiasm of his twenty years, and unembarrassed by any actual contact with film, he felt that he had the answer.
