April Aldrich : A History of Honey in Georgia and the Carolinas (American Palate) before purchasing it in order to gage whether or not it would be worth my time, and all praised A History of Honey in Georgia and the Carolinas (American Palate):

0 of 0 people found the following review helpful. A treasure of a read! A "must get!" By Devorah The author has a well-spring of information on the history of honeybees and her style of writing just draws you in ~ wanting to read more! I love her style of writing and all the research in this book was so interesting. I highly recommend this book - it's a treasure! 0 of 0 people found the following review helpful. good history book just not what i was looking for By Vernon

P.good history book just not what i was looking for , i was looking for more info on raising bees in GA.0 of 0 people found the following review helpful. A very good read. Rich in information and quite entertainingBy Elizabeth L. WaltersA very good read. Rich in information and quite entertaining. I read it the day after I purchased it and was inspired to investigate starting my own opportunities to place hives on my property. I know my great grandparents and grandparents always kept many hives on there farms.

In the late 1800s, Georgia and the Carolinas produced millions of pounds of honey and created a lasting legacy within the industry. The uses for the sweet nectar go well beyond flavor. Bee pollination extensively benefits agricultural crops in the area. Elements from the beehive are commonly used in popular cosmetics, medicines and mead. Beekeepers also face serious challenges like Colony Collapse Disorder. Join author and beekeeper April Aldrich as she traces the delectable history of honey and beekeeping throughout the region, from ancient apiaries to modern meaderies and beyond.

About the AuthorApril Aldrich is a beekeeper in Charleston, South Carolina. She sells honey from her bees as well as mead-making kits. April is a member of Charleston Area Beekeepers Association., American Mead Association and Savannah Brewers League, and owner of both Must Bee Mead and Must Bee Honey.
