David Hatcher Childress ... what can I say ... if you are into the weird, this is read for you, not a Hunter Thompson but closeBy Brewer GI like David Hatcher Childress. Anyone who can make a living feeding the appetites of the Ancient Alien Theorists crowd, getting to travel the world on someone else's nickel, stay out of corporate America, be on TV (even it is the Discovery Channel), have weird friends like

Giorgio Tsoukalos (The hair Dude) and Von Daniken, write a zillion books by recycling parts of his other books (he must be a word processing Wiz), and have book stores all over the world that he can visit and write it off as a business expense, IS A GENUS IN MY BOOK. The book is about him, how he got to be who he is, things and places he has done/visited, etc. This does not compare w/a biography of Einstein, Jefferson, etc because he not in their league by any means. But he is a semi-infamous public figure who, for the his unique milieu, is interesting (at least for me, he's not to everyone's taste but then my tastes are slightly askew anyway). If you have ever gotten hooked on the 'alternative thinking' involved in the Discovery Channels weird ass offerings then you have to know D.H.C. ("... it kinda makes you want to wonder ...", you have to have seen him to get the reference) he is a force in the conspiracy world. And a fun one at that. I don't know if I would recommend this book as a purchase unless you are into the unconventional, fringe modes of thinking. I find the outre interesting and amusing. There are way too many people taking themselves way too seriously and trying to drag the rest of us along with them into their PC, narrow thinking, sheltered, gated community nirvana's. David ain't one of them and I applaud him for that. Read at your own risk (you have been warned about wasting your money). 0 of 0 people found the following review helpful. Great giftBy barbara e douglassI bought this for a relative, an avid fan of "Ancient Aliens" TV series on History 2 channel. He was thrilled to open the book as a present. I then went to speak at a conference in Virginia Beach, only to find that David Hatcher Childress was a speaker at the same time at a weekend conference at the ARE, a few miles from our weeklong conference. The book as a gift was well appreciated by a fan of David's. My relative loved the narrative style of the book and is avidly consuming it now. Kudos. Great book for your "Ancient Aliens" fan as well. 0 of 0 people found the following review helpful. He Cracks Me Up!!By Violet BunnyDavid Childress at his most hilarious. Very entertaining.

With wit and humor, popular Lost Cities author David Hatcher Childress takes us around the world and back in his trippy finale to the Lost Cities series. Hersquo;s off on an adventure in search of the apocalypse and end times. Childress hits the road from the fortress of Megiddo, the legendary citadel in northern Israel where Armageddon is prophesied to start. Hitchhiking around the world, Childress takes us from one adventure to another, to ancient cities in the deserts and the legends of worlds before our own. Childress muses on the rise and fall of civilizations, and the forces that have shaped mankind over the millennia, including wars, invasions and cataclysms. He discusses the ancient Armageddons of the past, and chronicles recent Middle East developments and their ominous undertones. In the meantime, he becomes a cargo cult god on a remote island off New Guinea, gets dragged into the Kennedy Assassination by one of the ldquo;conspirators," investigates a strange power operating out of the Altai Mountains of Mongolia, and discovers how the Knights Templar and their off-shoots have driven the world toward an epic battle centered around Jerusalem and the Middle East.

About the AuthorDavid Hatcher Childress is the author of more than 16 books, including the Lost Cities series, The Fantastic Inventions of Nikola Tesla, Technology of the Gods and other titles.
