Beauty with Strength, Grandeur with Style- a Winning CombinationBy SEBI HIGHLY recommend this book if you want to understand how the history of yesterday and the events to today combine to form the backbone of this nation.The grouping of photographs is like none other that I have ever seen. Together, they convey tender insights of caring, courage and the honor given to individuals who served their country yesterday by individuals who continue to serve today.But don't misunderstand me, this isn't a book of sadness or remorse and it isn't full of mushy pictures. No, it is a collection of photographs conveying strength with beauty, dedication with pride, and grandeur with a simple style and fine attention to detail.0 of 0 people found the

Walking through Arlington National Cemetery is an experience like no other. A quiet sense of respect persists, and the beauty overwhelms. It is the final resting place of thousands of our nation's war heroes, with more added every day in poignant and moving ceremonies. Robert C. Knudsen presents the majesty and dignity of this national cemetery with over 200 full-color photos of Arlington during each of the four seasons. He highlights the natural beauty that surrounds it, with the vibrant colors of fall foliage, the stark contrast of a winter's snow, the soft pink of the cherry blossoms, and the bright sun of the summer. Every branch of the military is represented as well, with up-close photographs of ceremonies, practices, and many of the unique and interesting gravesites Arlington holds. A Living Treasure showcases the changing of the guard at the Tomb of the Unknown Soldier; Section 27 and Freedman's Village, where one-time slaves are buried; Kennedy's grave and the Eternal Flame; the honor guards, ceremonial units, and special events for each military branch; and so much more. It includes text sidebars explaining highlights of Arlington's history as well, from the Arlington Ladies to how burial at ANC became such an honor. With a special focus on each branch of the military and each season of the year, A Living Treasure is a unique and beautiful keepsake, whether you've been to Arlington National Cemetery, plan on visiting, or just want to experience the beauty on your own.
