Meet Fate Haid is many things. A slayer in training. A demigoddess hybrid. A guardian deity. But one thing she never could be considered is normal. All Fate wants to do is finish her training as a slayer, and honor her family name. But when you're the guardian deity of the moon, and your best friend is actually your 'soul twin' things can get a little complicated. Something strange is going on in Crosswood, New York. Demonic activity has picked up, murders are increasing, and people are disappearing. The increased activity can only mean one thing. Someone is trying to wake up Abaddon, and Fate is caught in the cross hairs. There's no question that Fate has the power to defeat the enemy. The

question is; How much will Fate lose on the way?
