But mistakes in music usually stand out so use your ear and make the corrections as needed. These tablature books make learning the songs much faster then figuring out the music yourself. I can't imagine how many record albums i ruined back in the 70's 80's trying to figure a song out by backing up the needle to hear it again and again!!This is a very good book to learn some AC/DC songs!0 of 0 people found the following review helpful. It is what it is.By YarrrdoggI love the subject matter but the print is so small that it's just very hard to read. Kinda hard to learn a song this way.0 of 0 people found the following review helpful. Five StarsBy AutumnEasy to read guitar tab! Great for people who don't know how to read music.
