David Howard, Jamie Angus : Acoustics and Psychoacoustics before purchasing it in order to gage whether or not it would be worth my time, and all praised Acoustics and Psychoacoustics:

1 of 1 people found the following review helpful. Five StarsBy L-S-GreenbergWell written and easy to follow, highly recommended for a subject that can be confusing and hard to approach5 of 6 people found the following review helpful. Nice Book, Explains with humour and passion.By Ma Gabriela Canales GarciAcoustics from a very professional point of view, explained with humour and passion. Some of the subjects it took me a couple of reads before I got the concept but It goes very thoroughly on the subjects.

The acoustics of a recording space can have a real impact on the sounds you create and capture. The book gives an essential grounding and understanding to how real music sounds behave and are perceived in real spaces. With a clear and simple style Howard and Angus walk you through the theory- the science of sound engineering and music production, and the practical ? how to apply it to music spaces so create professional sound, using real world examples

and providing audio clips and recorded sounds to work with. Updated throughout the new edition uncovers the acoustic application for today's recording industry. The website is packed with audio clips, questions and answers, a calculation facility as well as links and resources.

"A comprehensive book designed to provide a broad-ranging introduction to the subject of acoustics." - Audio, Video and Broadcasting Magazine "The sound and the way we hear it; its characteristics and the complex processes that are carried out between the hearing and the brain to interpret it; its processing; the musical notes; the tuning systems; the audition environments or spaces, and more. "Acoustics and Psychoacoustics" talks about all these topics in a precise, clear way with a wide variety of examples so that the reader can solve any doubt." - Tecnoprofile Magazine About the Author David M. Howard, Jr. (Ph.D. University of Michigan) is Professor of Old Testament at Bethel Seminary in St. Paul, MN. He has published seven books and numerous journal articles, book chapters, and essays, and is a past president of the Evangelical Theological Society.
