A must purchase for those who enjoy handwork and unique creations.2 of 2 people found the following review helpful. Beautiful, concise resourceBy DamselflyStudioA well written, superbly illustrated book of millinery techniques used by a leading bridal milliner, Myra Callan, Twigs and Honey. Techniques are explained in good detail. I think the DIY bride will appreciate the skill and craftsmanship it takes to create one of Myra's exquisite pieces and unless they are extremely gifted, decide it is well worth the money to purchase the original piece of art from the designer. Finding just the right materials, tools and having the time to practice...well...after all that you will then know why quality millinery is priced as it is. I ordered the book for my own millinery library, then had a chance to preview it through KindleUnlimited. I plan on using the same flower making techniques in wool needle and wet felt.3 of 3 people found the following review helpful. Five

StarsBy GabriellaI make flowers for hats and this book has given me a variety of designs.
