**From Butterworth-Heinemann : Advanced Concrete Technology Set** before purchasing it in order to gage whether or not it would be worth my time, and all praised Advanced Concrete Technology Set:

Based on the Institute of Concrete Technology's advanced course, this new four volume series is a comprehensive educational and reference resource for the concrete materials technologist. An expert international team of authors from research, academia and industry has been brought together to produce this unique reference source. Each volume deals with different aspects of the properties, composition, uses and testing of concrete. With worked examples, case

studies and illustrations throughout, this series will be a key reference for the concrete specialist for years to come. Expert international authorship ensures the series is authoritative. Case studies and worked examples help the reader apply their knowledge to practice. Comprehensive coverage of the subject gives the reader all the necessary reference material.

**About the Author** John Newman was a military intelligence officer and a Professor of History at the University of Maryland. He lives in Harrisonburg, Virginia. Excerpt. copy; Reprinted by permission. All rights reserved. The comprehensive reference source for all concrete specialists
