Easy and quick read, provides some great outdoor ideas for teens and adults alikeBy karinI was unsure what to expect with this, but figured I would give it a shot. I have a 15 year old sister who always complains about being bored. She is also addicted to her cellphone or watching TV. We have a pretty large age gap between us as I am almost 30 years old, so we don't have much in common. I have looked on the internet for ideas on how to get her more active, like I was when I was her age. Still, at 30, I am far more active than she is. This book has some wonderful ideas, and each page includes a picture of the 'adventure.' It is a very simple read, and has basically one sentence per page...for example, 'go kayaking with your friends.' This gave me the great idea to offer to take my kayaks, my sister and her friends to the lake and let them go kayaking. Maybe she does not

want to go with her sister. Sure enough, I suggested it and we are planning on going this weekend. Some of the ideas do not help us as we do not live near a beach or snow. Some of the ideas are to go skiing, go surfing, and we just do not have anything like that near us which is a bummer. Still packed full of plenty ideas that we can do! Downloads right away and I love the Kindle for Android app for reading! Thank you for reading my review, please let me know if you found it to be helpful. Highly recommended for the bored teen

By Burns Well

This book is a collection of ideas for teens who can't think of something fun to do and needs some ideas. Each idea is illustrated with an accompanying picture. Some of the pictures are really nice, and they help give an idea of how much fun each idea could be. Sometimes, if someone is hopelessly bored, and you give them an idea, their bored minds will make that idea seem colorless and dull. A picture can be very helpful in this scenario. Of course, not all the ideas can be participated-in by everyone. Some of these fun ideas might not be possible in your part of the world, depending on the geography, weather, etc. But there are a lot of great ideas you may not have thought of, and it's likely that everyone will find something. This book is well organized and aesthetically pleasing. It's not a very big book, and it's not comprehensive of course, but if you're bored, this book may give you the inspiration you need to figure something out.

By James MI

read this book with my teenage cousin and we read it all in one sitting. It was a great influencer of good clean fun that kiddos can have. The pictures and text offered in this book are of the highest quality and it has offered the reader their ability to use their imagination to explore on the respected topic. I feel that having good pictures is important especially when it comes to kids, because it keeps their attention in the book. I think that all kids should read a book like this to educate them on things that are available for them to do so they don't sit around the tv or on a computer and stay inside like a recluse. They need to get out and have fun and this book gives them great suggestions on things to do.
