Easy to follow and is helping me to sight read. This is probably a little easy, but I am retired and not in a hurry. I am learning to play those "Sinatra Standards" and am enjoying a bunch.0 of 0 people found the following review helpful. Four StarsBy JackGreat, logical, helpful and fun to play.2 of 2 people found the following review helpful. Three StarsBy CustomerNot a lot there to learn.

This book teaches sight reading in a systematic way by creating exercises based on the same concepts that the student

is studying in the Lesson Book. Exercises are short and the music is generally easier than correlating pages in the Lesson Book.
