banging along in beat with the rhythms! We even had to switch teachers a couple months ago, and the second teacher liked this one so much, she's now recommending it to other students. 1 of 1 people found the following review helpful. Great for beginnersBy Sea TurtleGreat book for the true beginner. I use it in conjunction with my teacher's book as an added challenge to what he's teaching me. Will get you playing the basic rock beats, fills, and some jazz too.

This innovative method presents a practical approach to playing the drumset. Students start their first lesson by actually playing a beat! The book covers two styles, rock and jazz. Students will learn how the hi-hat, ride cymbal, snare, and bass drum are used in each style.
