1 of 1 people found the following review helpful. Good for beginnersBy HarryI have been attempting to learn the Ukulele. This book was recommended to me from a class I was attending. I found it simple to use. As a real novice it did give me some tunes to practice and ways to hold my fingers. I was unable to continue with the class and I must say

I really like looking up songs on how to play the ukulele on you tube and hear someone playing them. That being said I don't feel it was a waist investing in the book as this is what was used in the class.0 of 0 people found the following review helpful. Five StarsBy Carol L. OlsenCan't wait to learn!!0 of 0 people found the following review helpful. pretty good--certainly worthwhileBy William J. Pricespends more energy teaching single notes and reading notes on the staff and less teaching chords than i'd prefer but still a good teaching manual. tge dvd adds value.
