Good Book, but not for absolute beginners!By CustomerAlfred's Teach Yourself to Read Music (for Guitars) is a fairly thorough book, but starts out a little fast for students, like myself, that know absolutely nothing about reading music. It could be compared to a book on teaching yourself to speak Spanish, and starting by saying "Hola, Como esta'? I just wish it would have given a full chapter (or so)

explaining it better, before launching you into full songs. Also, I really wish it had a glossary of music terms. If you have some music reading experience, then this would be a good book. If you have none (like me), then you might want to try a different book. 0 of 0 people found the following review helpful. My kids are ACTUALLY learning to play guitar with this book. By Kipchak My kids are ACTUALLY learning to play guitar with this book. WOW, considering how hard I had to encourage them to learn. They could play simple songs in the first month of using it. 0 of 0 people found the following review helpful. BIG THANKS AGAIN TO AMAZON!!! By T Simon This is just what I needed!
