BLEN PARKERFollowing my brief meeting with Mrs. Grant, (at a live-reading of a local sea captain's journals) I was compelled to order this informative book on the area I now live. I was not disappointed with the pictures and narrative of what life was like in this area in previous years. Currently putting together a book involving a little island in the Kennebec River, I found myself gaining more and more respect for Mrs. Grant's research as I advanced through the book. Thank you Gay Grant for putting this book together!0 of 0 people found the following review helpful. Excellent

read!By Jane BiscoeGreat pictures and a nice overview of the area!1 of 1 people found the following review helpful.
Early Maine Viewed Through the CameraBy Virginia AllainA charming look at the daily life of the Bryant family and their neighbors in South Gardiner, Maine. The book displays more than 200 photos by Herman Bryant taken from 1890 to 1936.Included are views of the town, river, islands, and special events like a train wreck and floods. The life of long ago intrigues with scenes of harvesting ice from the river, steamboats, logging scenes, and other vignettes of early Maine.The text gives enough to expand on the photo, but not enough to distract from the visual quality of the book.

This wonderful new book takes us back in time to visit the rural communities that thrived along the banks of the Kennebec River around the turn of the centurymdash;from Augusta and Gardiner down to Merrymeeting Bay on the coast. Local author Gay M. Grant has brought together more than two hundred beautiful photographs taken by gifted local photographer Herman Bryant between 1890 and 1936. This volume makes these photographs available to the public for the first time. The images bring to life the people, places, and events that defined the history of the area during this exciting era. We see the Kennebec River at its industrial peak, when industries such as lumber, paper, ice, and shipbuilding lined its banks. We encounter buildings such as Mainersquo;s old capitol building (before its refurbishment) and the Blaine House as it used to look. We witness terrible tragedies such as the train wreck of 1905, and share in local celebrations too. We experience the Age of Steam and the Age of Sail in their heyday. Most important of all, we meet the people who lived and loved, worked and played in these communities throughout this fascinating period. Through the pages of this book, our past reaches out to us.
