Not only a book that gives you ideas for different surfaces, but gives you more information about that surface and how to prep and seal it. I admit, when I got the book I quick flipped through for a visual scan and loved what I saw. then I started looking at it page by page and couldn't stop saying to my husband "THIS is the book I've been looking for!!!". I'm overwhelmingly impressed! It not only gives me ideas and instruction, but inspiration! A must in your library. 3 of 3 people found the

The material lists are clear and the copy isn't a rehash of every other book with "mixed media" in the title. There's plenty of eye candy and visual inspiration to get your creative juices overflowing. Hats off to McElvoy and Wilson for delivering on the title's promise.
