Stan Tekiela : Amazing Hummingbirds: Unique Images and Characteristics (Wildlife Appreciation) before purchasing it in order to gage whether or not it would be worth my time, and all praised Amazing Hummingbirds: Unique Images and Characteristics (Wildlife Appreciation):

2 of 2 people found the following review helpful. I browse the web and found this amazing book about hummingbirdsBy David H.After a few tries of my own to shoot pictures about Hummingbirds without success, I browse the web and found this amazing book about hummingbirds. It is interesting to read. It tells every thing you want to know about hummingbirds. It covers hundreds of different hummingbirds in different region in North America. It is such a wonderful book I highly recommend.1 of 1 people found the following review helpful. Loved this book!By Michael RobertsThis is my kind of book! The author doesn't try to be funny or flowery. Neither does he sound dry and scientific. He just tells us all anyone wants to know about these incredible little birds. He has captured some great photos that show much of their habits and explains what they do from birth to migration and back. Highly recommend to anyone with an interest in hummers.0 of 0 people found the following review helpful. Great pictures.By Steven MulreadyInteresting info. Great pictures.

Professional wildlife photographer Stan Tekiela spent more than ten years traveling across the country to observe and photograph the hummingbird's various species. He documented every aspect of the hummingbird's life, resulting in an incomparable collection of images and insight - compiled here in one unforgettable book. Compelling photographs and descriptions present the lives of these enchanting backyard birds.

About the AuthorNaturalist, wildlife photographer and writer Stan Tekiela is the author of more than 175 field guides,

nature books, childrenrsquo;s books, wildlife audio CDs, puzzles and playing cards, presenting many species of birds, mammals, reptiles, amphibians, trees, wildflowers and cacti in the United States. With a Bachelor of Science degree in Natural History from the University of Minnesota and as an active professional naturalist for more than 25 years, Stan studies and photographs wildlife throughout the United States and Canada. He has received various national and regional awards for his books and photographs. Also a well-known columnist and radio personality, his syndicated column appears in more than 25 newspapers and his wildlife programs are broadcast on a number of Midwest radio stations. Stan can be followed on Facebook and Twitter. He can be contacted via www.naturesmart.com.
