**Amy Winehouse : Amy Winehouse - Back to Black Songbook (Vocal Piano)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Amy Winehouse - Back to Black Songbook (Vocal Piano):

But to accurately transcribe Amy's never-the-same vocal lines this would need to be at least three times as long (multiplying by average number of verses per song).If you want the chords and some convenient lead sheets, say for an ensemble or band doing covers - this is great! If you're a vocalist wanting to learn Amy's performances, this can be a somewhat useful guide - but you'll need to use your ears and the recordings to really learn her recorded performances on Back to Black.2 of 2 people found the following review helpful. Great Song BookBy elJuezIt is great to see Amy's music on the page, and the transcriptions are spot on. Viva Amy Winehouse. Love and Kisses0 of 0 people found the following review helpful.
