Shows bones, muscles and their names while also explaining proportion on female and male bodies. There's a chapter solely on hands.0 of 0 people found the following review helpful. Four StarsBy OistinsGood book, very detailed drawings. Recommend for artist interested in portraiture.

"It's like having an anatomy book at your fingertips." — Collectors' CornerThis instructive book presents excellent annotated line drawings of anatomical structure for the beginning artist. Explaining the subject in simple

terms and with an extensive series of dynamic illustrations, the author identifies parts of the body and demonstrates a wide array of physical activities through his sketches.
