LOVE!!!!By RogerPadilhaThis is a must have for any fashion collector, fan of Ms. Sui's work, and students! The introduction by Meisel is amazing (and rare as he rarely does any interviews), the photography is inspiring, and the runway photos have been carefully edited so that you really get a great sense of what each collection was about. A genius book on a genius subject.

Anna Sui's trendsetting rock-and-roll looks have made her one of this decade's top five fashion icons (Time). Here, in the first book to cover the entire scope of Sui's twenty-year career, fans get rare access to the designer's creative process. This richly visual retrospective celebrates her influence, from her first show that snared the support of

supermodels Naomi Campbell, Linda Evangelista, Christy Turlington, and Kate Moss to the role she's played in making the babydoll dress one of fashion's most iconic silhouettes. With more than 400 photographs from legendary photographers, this exquisite tome with a shimmering foil-stamped cover is essential for all fashionistas.
