Love the variety of different composers. The music is large enough to read comfortably. Would definitely buy other music in this series, but only if the book is comb bound.0 of 0 people found the following review helpful. good anthologyBy john robisonLots of lesser-known pieces in here that are pretty interesting. Great Romantic collectionBy JLTGreat collection. Most pieces are fairly advanced.

Works by 36 composers are included in this comprehensive survey of piano music written between 1820 and 1910. The pieces in this collection range in difficulty from intermediate through early-advanced levels and cover the widest range of styles and idioms of the Romantic period. Historical and biographical background and performance notes are provided by Dr. Hinson.
