Good Book!By Denise Borum, JDI play keyboards for a new group that was formed. I need this music because I have to learn a couple of songs. The music notation is large and easily read and the chords are included. You can use this book as a fake book as well. I rated this book a "4" because the words are not included. Otherwise, I am very happy with this purchase.0 of 0 people found the following review helpful. Nice arrangements, but a bit on the tricky side for meBy geezerdlyI'm a fan of nearly all of Brent Edstrom's arrangements. I am having a problem dealing with some of the rhythm patterns in

Jobim's music. That's not Jobim or Edstrom's problem, though. This book might be just a tad above my pay grade, but I'll probably get more comfortable with them over time.
