A few good tips, but it's mostly info in the user manualBy Gabriel PonzanelliThis book does have a few tidbits of info but you'll get 90% of it from just reading the Aperture user manual. This book also covers only the managing and organising of photos in Aperture, it does not touch on image editing at all (ie post processing, which is an Aperture strong point), or exporting, printing, slide shows, books, etc.0 of 0 people found the following review helpful. Only got 5 chaptersBy DebbieThe first chapters mention topics to be covered in 6 , 7, 8, but my kindle version stops at chapter five. What was there was helpful.0 of 0 people found the

following review helpful. Useful item for me.By Anthony L. NguyenThe item really does meet my need . I am using it quite often as expected. I do not hesitate to order from this seller next time.
