**Sam Kubba : Architectural Forensics** before purchasing it in order to gage whether or not it would be worth my time, and all praised Architectural Forensics:

Successfully Conduct and Report on Any Architectural Forensic Investigation Architectural Forensics clearly defines the role, responsibilities, and essential work of forensic architects. This unique resource offers comprehensive coverage of building defects and failures, types of failure mechanisms, and job-critical tasks such as fieldwork, lab testing, formulating opinions, and providing expert testimony. Packed with 300 illustrations, in-depth case studies, and numerous sample documents, this vital reference takes you step-by-step through every phase of conducting investigationshellip;diagnosing building failureshellip; preventing and curing building defectsshellip;and reporting on findings. The book also includes strategies for avoiding liability and resolving disputes-potentially saving vast

amounts of time and money. Authoritative and up-to-date, Architectural Forensics Features: 

- Full details on conducting investigations and reporting on architectural forensics
- Clear guidance on preventing and curing building defects and failures
- In-depth coverage of field work, photogrammetry, and lab testing
- Practical insights into litigation, dispute resolution, and expert testimony
- Solid business advice on presentation methods, marketing, and setting up an office and website

About the Author Sam A.A. Kubba, PhD, (Herndon, VA) has more than 30 years' experience in all aspects of construction. He is an award-winning architect, and has worked as a general contractor, interior designer, and property developer. His practice includes projects in the U.S., U.K., and the Middle East. He has appeared on numerous TV and radio talk shows including the BBC World Service, CNN, Lehrer Hour, CNBC, and was featured in the documentary film *Fahrenheit 9/11*. He is currently a consultant for the United Nations Office for Project Services, and his books include *Mesopotamian Furniture* (Oxford, 2006) and *Space Planning for Commercial and Residential Interiors* (McGraw-Hill, 2003).
