From Routledge : Architecture and the Paradox of Dissidence (Critiques: Critical Studies in Architectural Humanities) before purchasing it in order to gage whether or not it would be worth my time, and all praised Architecture and the Paradox of Dissidence (Critiques: Critical Studies in Architectural Humanities):

Architecture and the Paradox of Dissidence maps out and expands upon the methodologies of architectural action and reinvigorates the concept of dissent within the architectural field. It expands the notion of dissidence to other similar

practices and strategies of resistance, in a variety of historical and geographical contexts. The book also discusses how the gestures and techniques of past struggles, as well as 'dilemmas' of working in politically suppressive regimes, can help to inform those of today. This collection of essays from expert scholars demonstrates the multiple responses to this subject, the potential and dangers of dissidence, and thus constructs a robust lexicon of concepts that will point to possible ways forward for politically and theoretically committed architects and practitioners.

About the Author
Ines Weizman is Senior Lecturer at London Metropolitan University and a Junior Professor of Architectural Theory at the Bauhaus University Weimar.
