Deborah K. Dietsch : Architecture For Dummies before purchasing it in order to gage whether or not it would be worth my time, and all praised Architecture For Dummies:

0 of 0 people found the following review helpful. dummies like to look at picturesBy Alex CaemmererCould have more pictures. After all, dummies like to look at pictures.0 of 0 people found the following review helpful. Very NiceBy Marvin C.Love it. No complex vocabulary, well-organized and clear explanations in each topic.5 of 5 people found the following review helpful. could use more illustrations... considering the subject matterBy levThis guide could use more illustrations... considering the subject matter is most easily explained visually. A picture is worth a hundred words. A fabulous book on architecture is Eyewitness Companions Architecture by Jonathan Glancey.

When is a building just a building and when is it art? This accessible guide cuts through the jargon and clearly explains the essentials of architecture, demystifying the incredible ways in which structures and spaces come alive. You'll gain a real appreciation for architecture and the confidence to talk about itmdash;even to an architect. Just the essential information for readers on the go who want to understand architecture. Covers the highlights of architectural

history, from the Great Pyramids to Frank Gehry's Guggenheim museum in Bilbao. Explains how to look at a building and appreciate it. Explains when a building's a building and when it's art. Part of Tens includes Ten Great Architectural Masterpieces, Ten Biggest Architectural and Engineering Failures, Ten of the Most Interesting Architects Working Today, and more.

From the Back CoverGreat architects, innovative designs, and engaging photographs throughout Get a handle on the nuts and bolts of design and construction When is a building just a building and when is it art? This accessible guide cuts through the jargon and clearly explains the essentials of architecture, demystifying the incredible ways in which structures and spaces come alive. You'll gain a real appreciation for architecture and the confidence to talk about it — even to an architect. Praise for *Architecture For Dummies* "Deborah Dietsch is an insightful critic and author. In this book, she has a rare ability to address a professional audience, while providing accessibility to a lay reader." — FIAI, Antoine Predock Architecture Get Smart!www.dummies.com Find listings of all our books Choose from many different subject categories Sign up for eTips at etips.dummies.com About the AuthorDeborah K.
