**Jianfei Zhu : Architecture of Modern China: A Historical Critique** before purchasing it in order to gage whether or not it would be worth my time, and all praised Architecture of Modern China: A Historical Critique:

A collection of essays on architecture of modern China, arranged chronologically covering a period from 1729 to 2008, focusing mainly on the twentieth century. The distinctive feature of this book is a blending of 'critical' and 'historical' research, taking a long-range perspective transcending the current scene and the Maoist period. This is a short, elegant book that condenses the wide subject matter into key topics.

About the Author Jianfei Zhu is Associate Professor in the Faculty of Architecture Building Planning at the University of Melbourne. His research explores analytical and international perspectives on the Chinese experience in architecture, urbanity and social practice.
