A waste of time, paper, and space on . I feel like I wasted money buying this. If you want to see hand drawn artwork with no descriptions as to why these are on the pages, then go for it, but if you prefer to have a book that will actually educate you about the rich culture of Argentina, then find a different book. You will not find it here.0 of 0 people found the following review helpful. YES.By Sean MarinThis book is "dope."0 of 0 people found the following review helpful. Five StarsBy Jose UgartecheNice book for tattoo design ideas.

This stunning collection of 284 rare designs is a bonanza for artists and craftspeople seeking distinctive patterns with a

South American Indian flavor. The carefully adapted, authentic motifs include animal and totemic designs, geometric and rectilinear figures, abstracts, grids, and many other styles in a wide range of shapes and sizes.
