**From Wiley-Blackwell :** Art and Thought (New Interventions in Art History) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Art and Thought (New Interventions in Art History):

Art and Thought is a collection of newly commissioned essays that explores the relationship between the discipline of art history and important movements in the history of western thought. Brings together newly commissioned essays

that explore the relationship between the discipline of art history and movements in the history of western thought. Considers the impact of the writings of key thinkers, including Aristotle, Kant, and Heidegger, on the way in which objects are perceived and understood and histories of art are constructed, deconstructed, and reconfigured according to varying sets of philosophical frameworks. Introduces the reader to the dynamic interface between philosophical reflections and art practices. Part of the New Interventions in Art History series, which is published in conjunction with the Association of Art Historians.

"Smart and savvy contribution to a list of recent anthologies that work at putting the spirit back into art history. Reading so many lively voices talking about why art still matters is both a serious pursuit and a pleasurable pastime."
