Better than the others that have more or less the same thing just drawn slightly different.1 of 1 people found the following review helpful. Quality at a reasonable priceBy JKTDover makes good quality, affordable books. Recommended if you are interested in Art Nouveau design.7 of 7 people found the following review helpful. excellentBy A CustomerThis is an excellent book containing many different art nouveau animal patterns. The paper used is excellent. All the patterns contain a rich blend of color and the designs are wonderful.

This design collection includes all 60 full-color plates from *L'animal dans la décoration*, a rare turn-of-the-century portfolio by M. P. Verneuil. Meticulously reproduced from the originals, these plates offer a splendid demonstration of the application of animal forms to decorative art. Included are not only representations of such traditional decorative motifs as deer, swans, and peacocks, but also depictions of creatures seldom associated with beauty and ornamentation: bats, mice, lizards, insects, and other less conventional subjects.
