before purchasing it in order to gage whether or not it would be worth my time, and all praised Art Nouveau Floral Ornament in Color (Dover Pictorial Archive):

5 of 5 people found the following review helpful. Eye candyBy Bird That FlewThis is a lovely book with very interesting and varied authentic antique patterns. The only thing I can think of to warn others of is, these designs are full page. They are not just one or two elements plucked out of a sheet of wallpaper - this IS the whole sheet of wallpaper. If that's OK with you or if that's what you're looking for, then buy this book.

Classic portfolio includes 197 original designs, shown on 48 color plates: arrowhead, blackberry, buttercup, columbine, gourd, honeysuckle, iris, thistle, more; plus animal motifs: seahorses, kingfishers, peacocks, others, as well as some rarely associated with ornamental beauty such as rats and lizards. "An attractive and useful reference source."
