**Jean Lahor : Art Nouveau (Mega Square)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Art Nouveau (Mega Square):

This book tells about all the different countries and their Art Deco art and designers. Comes out handy since I would like to see some art myself. There are really amazing beautiful pictures in this book with parts magnified. I love this book! 1 of 1 people found the following review helpful. Ok but not the best. By Armando I got the Kindle edition of this book. It does not view well on the small Kindles, but is good on the Kindle Fire. I did find it best to view on my PC. While a good book, there are better books on Art Nouveau. 2 of 2 people found the following review helpful. Art Nouveau By Carol Vidal My favorite art style and I like the fact that I can have it on my Kindle because Art Books take up a lot of space.

Ever since its triumph at the Paris Universal Exposition, Art Nouveau has continued to inspire artists. The movement offered an artistic response to the industrial revolution and the creative vacuum left in its wake, exerting a huge impact on the decorative arts. Art Nouveau spans all forms of expression — including design, painting and architecture — and covers artists such as Gustav Klimt, Koloman Moser, Antoni Gaudí, and William Morris.
