The stunning, specially commissioned cover illustrations are one of the great joys of the New Naturalist series, lending it a distinctive style which has inspired nature enthusiasts for many decades. The Collins New Naturalist series is the longest-running and arguably the most influential natural history series in the world with over 100 volumes published in over 60 years. Throughout the years, the highly characteristic dust jacket illustrations have become iconic, lifting the books to a level of collectibility and increasing the level of admiration for an already well-established and respected series. With early cover illustrations prepared by Clifford and Rosemary Ellis, later and more recent covers have been designed by Robert Gillmor. Featuring prints of the awe-inspiring artwork of the New Naturalists, the book will offer a unique insight into Gillmor's approach to each subject matter and the intricate and creative way through which he has brought his own distinctive style and craft of printmaking to the New Naturalist series. Marren
