J. Paquette, E. Redaelli : Arts Management and Cultural Policy Research before purchasing it in order to gage whether or not it would be worth my time, and all praised Arts Management and Cultural Policy Research:

This book aims to present concepts, knowledge and institutional settings of arts management and cultural policy research. It offers a representation of arts management and cultural policy research as a field, or a complex assemblage of people, concepts, institutions, and ideas.

"This is an original and highly informative synthesis of a wide-ranging literature that will prove to be of great interest to not only students of cultural policy and arts management and administration, but also to policy-makers." Clive Gray, University of Warwick, UK
